

## Advance warning halogen lamps

Advance warning lamps used primarily for highlighting traffic signs, signs on highway information boards or the back of the maintenance vehicles.

- > **1 to 3 advance warning halogen lamps** ø300mm **EN 12352 L9H**
- > lamps flashing in **synchronous** or asynchronous **mode**
- > electronics automatically reduce luminous intensity at night
- > moreover, the electronics include reverse polarity protection and protect the battery from deep discharge
- > **5m power supply cable with battery terminals**, 3m length between each lamp
- > the lamps can be attached by M8 screws (horizontally in the axis 90mm from each other)

*Technical data in the chart refer to one warning lamp.*

### TECHNICAL DATA

|                          |                       |
|--------------------------|-----------------------|
| Power supply             | 12/24V=               |
| Current consumption 12V= | day 1,60A night 0,97A |
| Average consumption 12V= | 30,3Ah / 24 hours     |
| Current consumption 24V= | day 0,90A night 0,55A |
| Average consumption 24V= | 16,9Ah / 24 hours     |
| Flashing frequency       | 44/min.               |
| Dimensions (WxHxL)       | 340x340x210mm         |
| Weight                   | 6kg                   |

**DUE TO THEIR HIGH LUMINOUS INTENSITY, THESE LAMPS ARE USED PRIMARILY ON HIGHWAYS**

### PRODUCTS

| Order no.    | Product name                              | Quantity |
|--------------|-------------------------------------------|----------|
| 1-230-100051 | <b>Warning halogen lamp VHSU-1</b>        | 1 pc.    |
| 1-230-100052 | <b>Twin warning halogen lamp VHSU-2</b>   | 1 pc.    |
| 1-230-100053 | <b>Triple warning halogen lamp VHSU-3</b> | 1 pc.    |
