

NZSP-10_01 Light arrow SS25-L LED

Light arrow is a set to be installed on warning boards for indicating road works. This light arrow is also described as **Light arrow and cross type A**, warning arrow or signalling arrow.

- > **2 warning LED lamps** ø300mm **EN 12352 L9H**
- > **25 LED lamps** ø200mm **EN 12352 L8H**
- > electronics automatically reduce lamp luminous intensity at night and includes reverse polarity protection
- > moreover, the electronics protect the battery from deep discharge by disconnecting the light arrow symbols and possibly also the upper warning lamps depending on the current battery status, the user is informed by an alarm indicating that the lamps were disconnected
- > the white arrow on the blue round traffic sign is motor-driven but can be rotated manually in case of failure or emergency
- > thanks to a signalling system, the driver of the towing vehicle can check the functioning of the symbols in the rear mirror
- > remote control with 15m cable for control and optical check of the function modes
- > the remote control includes a voltmeter showing the battery voltage by indicators
- > all operational information are clearly displayed on the remote control and the user is also informed by a sound alarm
- > the light arrow has the following modes: arrow to the left, arrow to the right and cross
- > in the standard set, the light arrow is supplied with one battery
