

Running halogen lamp set BHS10-10

The running lamp set is a signalling device for guiding traffic in crosswise as well as lengthwise closures of up to 80m on roads.

It is possible to assemble a set of 3 to 10 lamps, the running lamps are always connected into the previous lamp creating a series of lamps.

MASTER HALOGEN LAMP RHS10-10

- > halogen lamp \varnothing 200mm EN 12352 L8M
- > the master lamp includes electronics, which control up to 9 running lamps, so that they get switched on and off from the direction of the master lamp
- > at night, electronics automatically reduce luminous intensity, to provide better orientation the lamps also have a backlight
- > moreover, the electronics include reverse polarity protection and protect the battery from deep discharge
- > 5m power supply cable with battery clips
- > the lamps can be attached to a profile of \varnothing 43mm or 40x40mm
